

Asking for the things I want and things I want to do

During the day, there are lots of things that I want and things I want to do.

When I want something or want to do something, I need to ask a teacher FIRST.

My teacher will either give me permission to get what I want,

tell me to wait,

or tell me "no", not now and that it is time for something else.

Asking for my teacher's permission before I get or do something is very important. It keeps me and my friends SAFE,

and shows my teachers that I have Self Control.

I feel proud of myself and my teachers are proud of me when I ask permission first and show Safety and Self Control.
